

## Clark Forklift Parts

Clark Forklift Parts - Presently, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 in use in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive makes of forklifts, with parts covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark has a extraordinary Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the operator restraint system. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark's recurrent effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the globally accepted quality standard ISO 9001 for each and every one of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and advantageous structure of "Lean Production" for its assembly plants and use of resources. This structure was developed to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the proficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines progressive product improvement and delivers superior customer support and service within the industry.
