

## Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its clients' preferred supplier. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which supports the utmost integrity with empowered collaboration, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and providing a safe surroundings for their employees to work in. What's more, they have applied lots of programs in the organization in order to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever questions or comments, because they are glad to share and promote this policy with a greater knowledge of their efforts. They are really dedicated to preserving and improving the natural world. AxleTech has an EHS program which not only protects the natural environment but which also actively protects their neighbors and employees too.

AxleTech specializes in the manufacture and designing of planetary axles used for both military and commercial applications, that can include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech particularly designs axles to meet particular application demands. They have more than 1000 various axle specs in their current offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various military and commercial applications. They offer complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have further details that can be seen in the "ISAS" product collection.
