

Meritor Parts

Meritor Parts - Meritor is a premier international dealer that is proudly founded on a 100 year custom of quality and service. They specialize in various integrated systems, modules and parts to original equipment manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their global operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced professionals.

By only employing future focused individuals, Meritor strongly thinks these top-caliber workers will be able to rapidly adapt to changing environments and exhibit the performance and commitment needed to be able to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all their employees various possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, suspension and braking systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their international engineering staff.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 nations and in 5 different continents.

They have their supplier network which is specifically located to support the growth of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each and every aspect of the business. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within each and every region. The team is also included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
